

Updating the PWCS Zoom Application

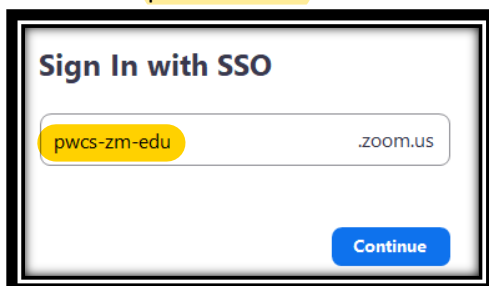

1. Locate and click on the Zoom icon on the desktop of your computer.

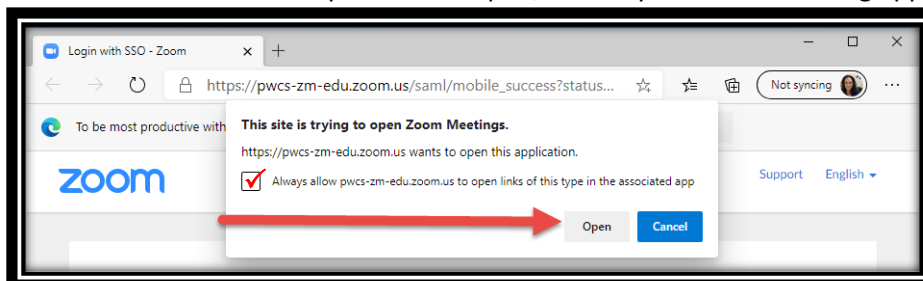

2. Click on **Sign in with SSO**. We prefer this because then you are truly authenticated in the Zoom/PWCS system. Our students should also authenticate this way, when needed.

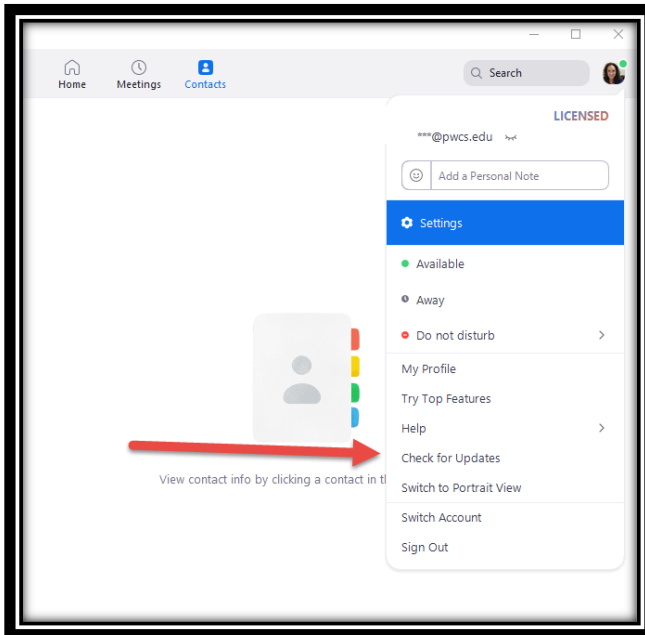

3. Be sure the **pwcs-zm-edu** is filled in the URL bar and click on Continue.

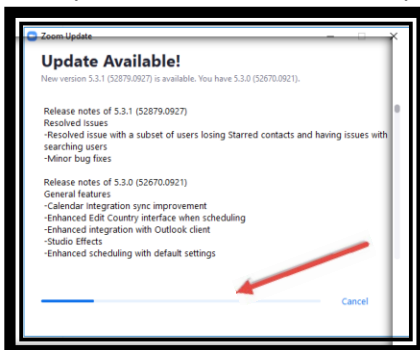

4. Click the checkbox to Always allow.....Open/Launch your Zoom Meeting app.

5. Left-click on your profile image or image in the upper right-hand corner. Click on **Check for Updates**.

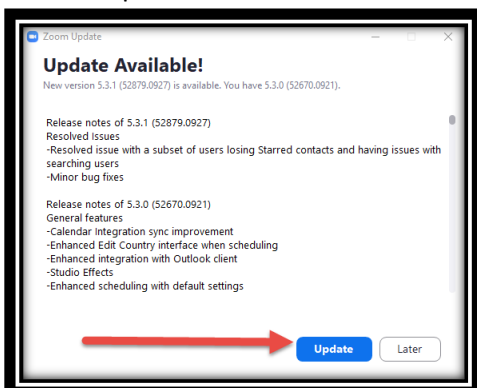

6. Once you click on the Check for Update, it will run a check to see if there are any available.

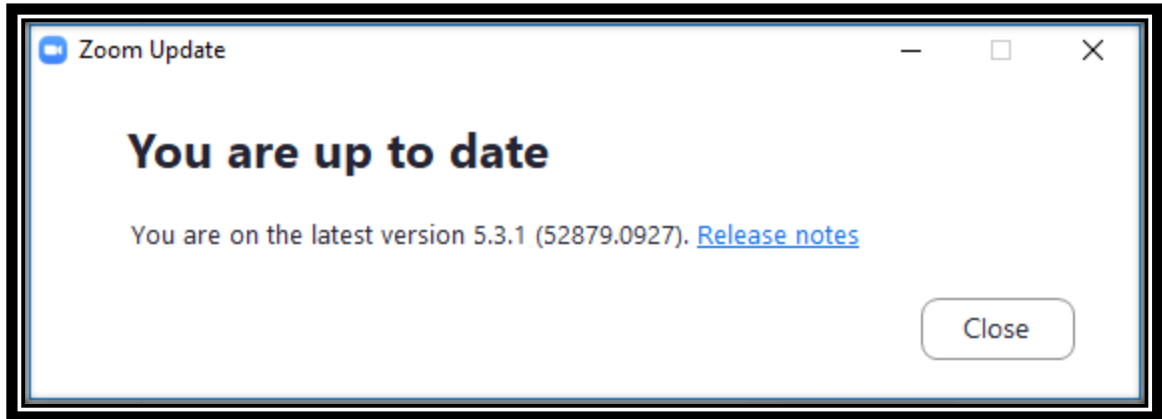

This blue bar shows the update being downloaded.

7. Run the Update. Note: This can't be done during an active Zoom meeting.

8. Let them run....

Please check for updates on a routine basis – maybe Monday mornings when you wake your computer up for the week. Encourage students to do this also.
